Fabrication Services

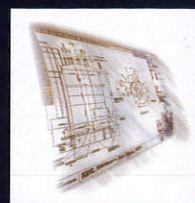

Tanks and Light Pressure Vessels

For the Oil & Gas, Petrochemical, Chemical,
Pharmaceutical, Water,
Environmental,
& Energy-Related Industries

Shop built carbon and alloy steel **Tanks** include cylindrical, flat base with dished or conical top. Single or multi-compartment, incorporating a variety of components, fittings, handrails, ladders and platforms manufactured.

Offloading and positioning of 20 Wefco manufactured vertical 3m diameter storage tanks (photograph courtesy of Tetraosyl Limited).

Engineering, estimating and commercial functions are fully computerised, and incorporate CAD operating Microstation software and Finglow design software running on pentium-based PC's

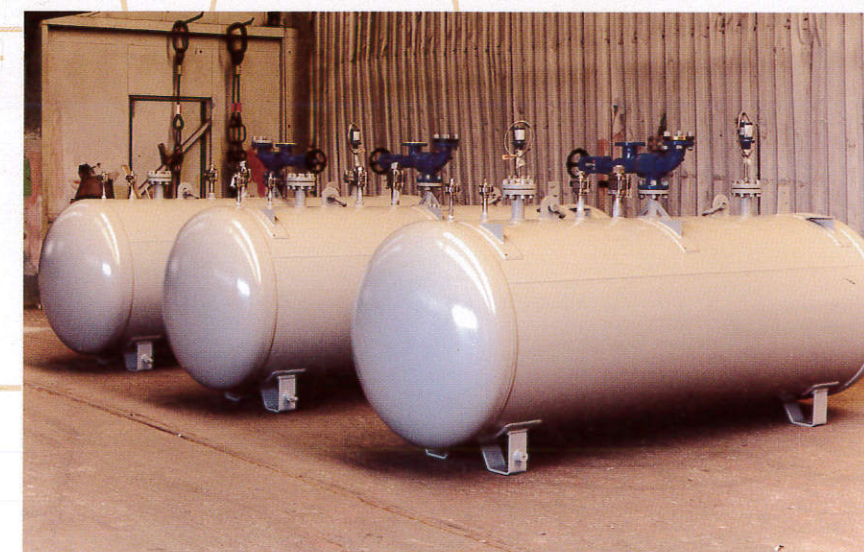

Our production facility is fully equipped for plate preparation and adopts the latest in welding processes including MMA, TIG, Submerged arc and MIG (metal cored and flux cored wires). We are capable of manufacturing tanks up to 4m diameter and 15m long and up to 20 tonne lift.

We continue to update our facilities to further enhance the service we offer in the design and production of light pressure vessels and tanks.

Light Pressure vessels in both carbon and alloy steels, with weld procedures in place covering a wide range of material specifications and thickness. Fabricated by our own highly skilled and experienced labour force.

Building on our heritage Wefco Limited now has one of the **broadest product ranges** of any fabricator in the U.K.

The company has a strong tradition in serving the Oil & Gas, Petrochemical, Chemical, Pharmaceutical, Water, Environmental, & Energy-related industries and has consistently provided solutions from enquiry through to installation.

**If you have a requirement for Tanks
or Light Pressure Vessels**

WEFCO ARE THE ANSWER.

LPG Storage Products

The **ONLY COMPANY** in this country
to offer you such a
broad product range

Wefco manufactures static LPG vessels including bulk storage vessels, tanks and skid units for **Autogas** and also a range of above ground and underground mini-bulk LPG vessels for domestic and commercial applications.

Our production line can produce a formidable 3000-3500

mini bulk tanks per annum (from a low profile

200kg capacity up to a full 4000kg

capacity vessel) with the ability to

double or even triple this total with

shift working.

The company can justifiably claim

to be the first in the UK to supply

underground mini-bulk tanks and to

be the only UK manufacturer with a

17 year production record in the field.

Quality in design and manufacture has always been

paramount and every vessel is supervised throughout the

entire production process and certified by an independent

inspection authority before delivery.

Mini Bulk, Bulk,

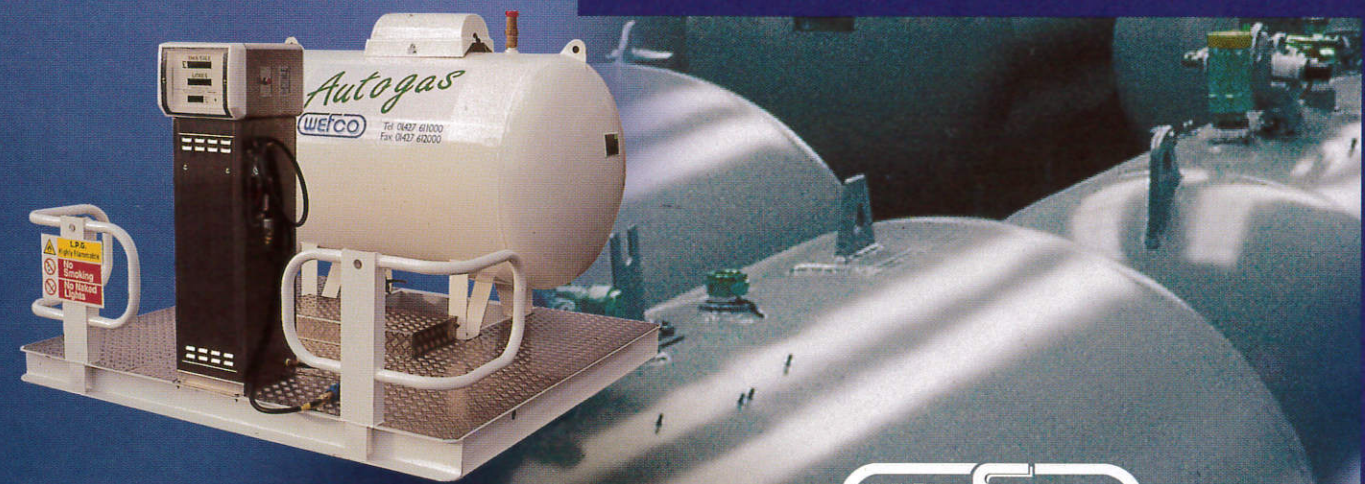

Skid Units and

Autogas Vessels

for LPG Storage

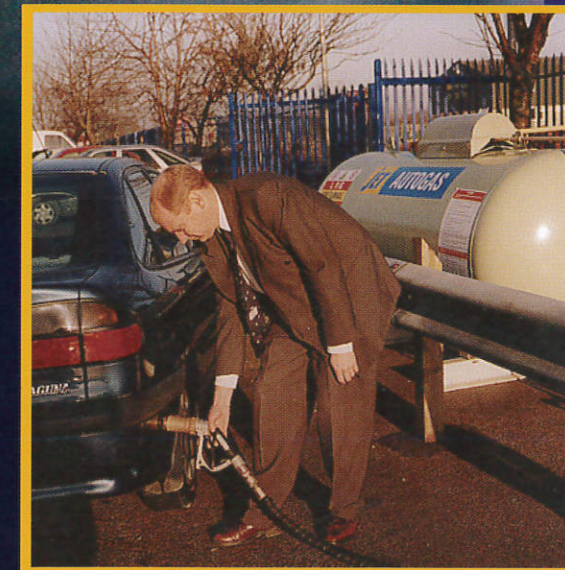

Wefco's painting facility is capable of **powder coating** mini bulk vessels up to 1.5m diameter with an alternative wet painting capability still being available.

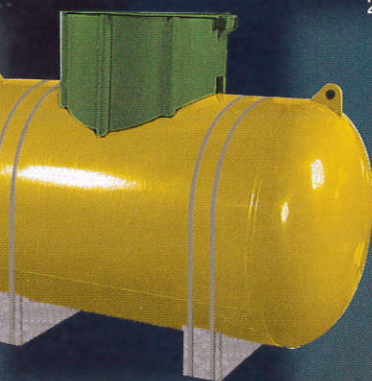

Wefco

Wefco are again at the forefront on LPG applications with the supply of tanks for **Autogas**

Utilising our vast experience in the fabrication of pressure vessels we are constantly upgrading the design and quality of our range ensuring that Wefco are again **leading the field** with its unrivaled range of products.

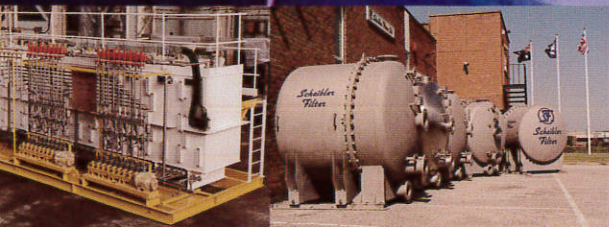

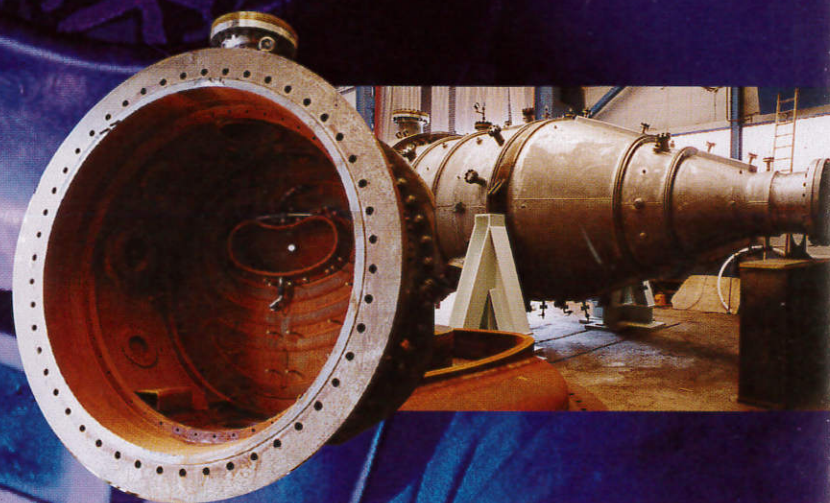

**Whatever your requirements in LPG storage
WEFCO HAS THE ANSWER.**

Fabrication Services

Wefco's Fabrication Division covers a diverse range of market and product areas. Stainless steel filters to reclaim particles of gold and platinum from waste materials, hydraulic cylinders to stop lifts if they fall down lift shafts, sophisticated base plates on which process equipment is assembled - these are all products produced by Wefco's Fabrication Division.

Whatever
your fabrication requirements
**Wefco could be the
ANSWER.**

PAST, PRESENT AND FUTURE

The growth from a tiny, four-man operation to the Wefco of today has been swift, but well-organised and professionally structured. Today, Wefco has a well-documented track record of expertise and a 30-year history of achievement in the industries it serves.

By investing in the latest technology and processes and with a well trained and

ENTHUSIASTIC workforce you're

always one step ahead of the competition. Wefco understands its clients needs and work together hand in hand with them to produce results which are...

...**SECOND TO NONE.**

Technology for the 21st century

Wefco's **mission** is to provide **WORLD CLASS** technologies, products and services, delivered on time, and within budget, which fully satisfy client needs and **exceed expectations**.

*whatever
your needs,*
Wefco can provide a solution
